Re: Annual Report Filing Requirements, C & R Minerals Mill, S/019/024, Grand County, Utah

Dear Mr. Cooper:

It has come to our attention that we have not received an annual report from you since your small mining notice was originally accepted by this office in 1990. Our records indicate that you have been notified on several occasions of this requirement. An annual report is required under the Utah Mined Land Reclamation Act ("the Act"), Title 40-8-15(2) and Rule R647-3-116 of the Division's Minerals Rules. This report is required unless you have received a written waiver or formal release from continued reclamation obligations from this Division.

A mine operator's repeated failure to file an Annual Operations and Progress Report may be interpreted as a knowing and willful violation of the Act. **In order to remedy this situation, please submit a completed annual report form for each of the years, 1990, 1991, 1992, 1993 and 1994 and submit them to this office by March 1, 1995.** A blank annual report form is enclosed for your use. You may make photocopies of this form as needed.

Your failure to remedy this situation may result in issuance of a formal Notice of Noncompliance and/or a Notice of Agency Action. As a result of these actions, you may be required to appear before the Board of Oil, Gas and Mining to explain your noncompliance with provisions of the state mining law. In addition, the Board may take appropriate enforcement actions as authorized under the Act.

If you have questions regarding this letter, please contact me or Tony Gallegos of the Minerals staff. Thank you for your cooperation and prompt attention to this matter.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
Minerals Regulatory Program
